THE BADGER STATE SAFE.—News was received yesterday that the Barque *Badger State*, of and for this port, reported ashore on Lake Huron, was afloat and all right. In addition to the despatch under our Telegraphic head, we have seen a private despatch to the owners, from Detroit, which announces the return of the Government steamer, *Michigan*, from her cruise up Lake Huron, and says that the *Badger State* was safe at Bois Blanc Island, 25 miles below Mackinac, waiting an opportunity to run thro' the Straits. The intelligence of the safety of this fine vessel was received here with great satisfaction.

We find the following confirmatory account in the Chicago *Democrat*;

Detroit, April 19.

The U. S. steamer Michigan has just returned from Lake Huron. The fortune, Badger State, Shoverick, Luther Wright, all other vessels on Lake Huron, all right. Nothing the matter.

LANDS FOR THE INDIGENT INSANE.—Our telegraphic despatch announces the passage of a bill, by the House of Representatives, granting lands to the several states for the relief of the Indigent Insane. The amount so granted, we believe, is 200,000 acres to each of the states. The bill had previously passed the Senate, and, with the President's assent, will become a law.

THE PILGRIMS TO WASHINGTON.

It is known to our readers that WILLIAM A. BARSTOW, Governor of Wisconsin, with a *suite* befitting his dignity and the importance of his mission, has left the State over whose destinies he presides and gone to Washington on "secret service." The *Wisconsin*, which alone seems to be invested with the confidences of the "powers that be," and affects to know all about the Executive movements, has shrewdly hinted that the Governor's business at Washington was to represent certain "grievances" under which our People labor, and which that paper and Gov. BARSTOW think our Senators and Representatives in Congress quite incompetent to redress. As to the State Printer, his business, the *Wisconsin* informs us, is "to give Nooman a turn"—in which labor of love he will, no doubt, have the hearty support and sympathy of our high-minded Executive.

The Sheboygan Lake *Journal*, a democratic paper, not quite so afraid to tell what it knows as our modest neighbor, the *Wisconsin*, throws additional light on this political mission, and addresses some useful advice to these Washington-bound pilgrims. We copy its article as forming part of the history of the day, and as furnishing excellent democratic credentials for these visitors to the Federal Capitol.

Gov. BARSTOW, Bank Comptroller Dennis, Geo. B. Smith, and Beriah Brown, of Madison, and Pierce T. Saunders, of Racine, we understand, have left or are about leaving on a visit to Washington to regulate matters for Wisconsin and aid the Valley Road swindle and decry the U. S. Surveys from this State in particular.

We must be allowed to express not only our surprise but our regret that any of the gentlemen connected with the State administration should neglect their official duties at home to visit the National Capital on such a degrading errand. There is no disguising the fact that the present State administration has fallen short of the expectations of its friends and fulfilled many of the worst predictions of its enemies, and if it keep on as it has commenced when its present term expires it will be swept by the board with the besom of destruction, if indeed the popular indignation can be restrained until that time. When the cause for the State Government amount to full 1-6 in each elector in the State, a condition of things exists that demands and must receive the full share of public indignation, and such is the situation of Wisconsin at this moment, and that too when one quarter of the sum required was unable to meet all honest demands on the State treasury.

But the most impudent part of this performance is that these gentlemen are going to Washington professing friendship to the National Administration, and to maligh the Congressional delegation with the exception of Mr. Macy, when it is well known that all there is in this State of opposition to the administration of Gen. PIERCE has been gotten up by these same men, or through the combined influences under their control.

If Gov. BARSTOW and the other members of the State Administration will take our advice and meet the public expectation, they will attend to their own business and the business of their officers' homes by and let the other public officers in the State do the same. It will, we venture to predict, do more for their reputations than any attempts to use their offices to filch money from the Treasury, or to make large grabs of the public lands, or to be connected with a raft of paper railroads, or starting banks on doubtful securities, or working seedy relatives or partners in business into positions that will enable them to rob the State out of $10,000 or $12,000 per annum through contracts or trades with the prison at Waupun.

MATTER IN PARVO. There is a great deal said in very few words in the following brief paragraph which we clip from the last Menasha *Advocate*:

Having received no Milwaukee *Sentinel* by the last mail, we are without the latest news.

Mr. Clerk! Be particular to see that the *Sentinel* is mailed to the Menasha *Advocate* every time.

FRED BOKS has been appointed by the Governor Emigrant Agent. A happy state of affairs! Members of the Legislature make offices to be filled by themselves. There was scarcely a salary raised or an office created by the late Legislature but that some member of the body enjoys the benefit.—*Kenosha Telegraph.*

This, too, in face of the positive Constitutional inhibition against appointing Members of the Legislature to offices *which they helped create*: and the state paper justifies these appointments on the ground that they are not "civil offices" but mere "agents" of the Governor!

RUN ON A SAVING'S BANK.—Quite a heavy run was made on the National Safety Fund Institute, at *Philadelphia* on Tuesday and Wednesday.—They paid out $150,000 in the two days. At the last accounts the run had ceased and confidence was restored.

GOVERNMENT CLERKS.—There are employed in the different Executive Departments at Washington, 737 clerks, who are divided into four classes: the first class receiving $900; the second class $1,200; the third class $1,500; and the fourth class $1,800 per annum.

OPERA AT CASTLE GARDEN. Max Maretzek who is now in Europe collecting an Opera Company, has leased Castle Garden, N. Y. for five months from the 1st of June next and is fitting it up with great taste and elegance. It is a noble School for music.

WAUKESHA P. O.—The editor of the Waukesha *Chronotype*, who is the Postmaster, of the town, denies the statement, which we copied from the Milwaukee *Ironsteel*, in regard to his resignation and the appointment of Senator REYNERT in his stead.

Railroad Matters.

We copy the following portion of a long article in the Grant Co. *Herald*, sufficient to indicate its tone—in order, if possible, to quiet the mind of our cotemporary:

RAILROAD HOAXING!

The grand combination scheme of united office holders from New York to Mississippi and Minnesota, under the *tri-capita-ship* of Robert J. Walker, Caleb Cushing and A. Hyatt Smith, has been a little checked by the defeat of the "A. Hyatt Smith Land Bill," so called, which Bill proposed giving away to every Railroad Company in Wisconsin, except two or three companies, large quantities of lands—(1) not to promote building railroads, but to secure offices to the leading operators for years to come.

* * * * * * *

Some time back, all seemed fair for the Milwaukee and Mississippi Railroad, and its early completion to Prairie du Chien, appeared like a fixed fact. It is said an act passed at the close of the Session, authorizing this city of Milwaukee to take stock in the Southern Wisconsin Road to the amount of $300,000. The former Road was not included in the favored list of roads for grants of lands; perhaps the latter was.(2) So the Milwaukeeans have once more changed their minds, if the legislature act was passed at their request. They have been persuaded to the change by some promise made by the league. After a while some other shift will be made, and we doubt whether any road will be built to the Mississippi, as the completion of any one road would frustrate somewhat the League operators.(3)

* * * * * * *

We don't believe Milwaukee ever asked for the act authorizing them to take $300,000 stock in the S. W. R. R. If they did there has been an outrage committed somewhere. We believe it was made to induce Milwaukee to forsake the M. & M. R. R. and go for the other, which is just as likely to be built as a road under the Mississippi river—though we would prefer to have it built to any other, but can see no show for it.(4)

(1).—The "Land Grab Bill" proposed to give the public lands to the Rock River Valley Road, and to that alone.

(2).—Of course the inference drawn by the *Herald* has no foundation in fact.

(3).—There is not the shadow of doubt of the completion of the M. & M. R. R. to Prairie du Chien. It will open to Madison shortly, and will build itself to the Mississippi. There will be no further delay than such as comes from difficulty in obtaining money in a tight market.

(4).—The act refer'd to, was *asked* by citizens of Milwaukee, in order that, if circumstances should be favorable, our city might be in a situation to aid in securing a connection with southwestern Wisconsin, its rich lead mines, its teeming farms, its merchants, and with the trade and travel from beyond. The two roads cannot interfere with each other. The trade and travel of the Southern part of Grant, and of Lafayette either goes to Chicago, or comes to Wisconsin Lake Ports by Railroads leading to them.

Keep up better courage, friend of the *Herald*. There's a good time coming.

The Nebraska Bill.

The Racine *Advocate* in a recent article, uses the following language:

"With all the consummate perfidy of Douglas, the baseness of the administration, and the treachery itself of the Nebraska iniquity, the whig party of the south sustain it to a man. Bell and Botts and Crittenden and Clayton: from whom something in their spheres was expected, became frightened, and yielded up the ghost of what virtue they were suspected of possessing."

The charge is by no means just. Neither Mr. Botts nor Mr. Crittenden upheld, but both oppose the iniquity. And everywhere, in all the Southern States, are found good and true whigs who oppose it earnestly.

By both the Whig papers in Louisville, by the Nashville Banner, by several journals in Louisiana, Texas, Arkansas, Virginia, Alabama and Tennessee, it is earnestly, consistently and ably opposed.

The old National Intelligencer has opposed it from the beginning. The Arkansas *Whig*, at Little Rock, says:

The only good it has produced is the killing off of Douglas, Pierce, and the whole set who are connected with it. It has buried them so deep beneath the scorn and contempt of the whole Nation, North, South, East and West, that the trump summoning defunct demagogues to arise from their graves of infamy, will fail to disturb their death-like slumbers."

Some of the ablest speeches made in Congress against the bill have been by Southern whig members from Louisiana and Tennessee, and one of the very best of them has just been made by Hon. WILLIAM CULLOM of the latter State.

☞ "THE BELLIGERENT POWERS OF EUROPE."—This is the title of a superb lithographic print, size 18 by 25 inches, giving full length portraits of the heads of the six nations now in warlike position to each other on the Eastern Question, viz:—The Emperor of Russia, Sultan Abdul-Medjid, Queen Victoria, Louis Napoleon, the Emperor of Austria, and the King of Prussia. It is certainly a very handsome specimen of the lithographic art and a good sample of numerous pictures, for sale by the same publisher, C. W. Schaus, printseller and artists, colorman, 303 Broadway, New York. They have engravings after Landseer, Turner, Vernet, Lessing, as well as after Raphael, Murillo, Correggio, and other old masters. We consider the one which we have received well worthy of a frame, and it may be seen at our office after a few days.

RACINE CIRCUIT COURT. Judge COTHREN, of the southwestern district, is holding the spring term of the Racine County Circuit Court in place of Judge Doolittle.

THE SCHOOL LAW. The Grant Co. *Herald* congratulates the people on the *fact* that the School Laws were not meddled with by the Legislature. The fact is that a completely new codification and arrangement of the School Laws was made, either for better or worse, and a large edition of pamphlet copies ordered, to be distributed to the School Districts.

Washington Items and Rumors.

From Our Own Correspondent.

Washington, Friday, April 14, 1854.

The Senate adjourned over to Monday without passing the Treaty. I learn that it has been so modified, already, as to reduce the sum appropriated to Santa Anna from twenty millions to seven. Thirteen millions of dollars saved!—Clayton, who at first was so violently opposed to the Treaty, is now said to be for it. One thing is certain—no *very* objectionable Treaty will pass the Senate this time.

Congress is practically, almost at an end.—Everything is dead. There will be no Pacific Railroad, no Homestead bill, and no other measure of importance, scarcely, passed at this session. Nebraska has paralyzed the whole mass, not excepting the Amistad bill.

The attempt to remove the duty on railroad iron was headed for a time at least, but Douglas may yet carry it through the Senate.

Senator Gwin is about leaving for California. He has little hope of re-election. His vote for the Nebraska bill finished him. All his untiring devotion to the interests of his State was outweighed by that fatal vote. He is not alone in his position.—*N. Y. Tribune.*

For the Sentinel.

That Hotel, Again.—Oh! that Hotel!! What has Become of that Hotel!

Messrs. Editors:

Have the friends of the improvement above alluded to, and which is so important to Milwaukee, been somnambulized, so that even BOOTH's quarrel with *that* subject(!) does not seem to awake them to a sense of their interest?

Some time ago some of the most sanguine friends of Milwaukee advocated the giving one of our most important Railroads into the hands of a Company of Chicagonians, and from present appearance there seems to be a disposition manifested to let Chicago have all the public spirit, and public House, by default. This is not as it should be; although we have some very, good Houses in Milwaukee, we want at least one first class House—such an one as would be alike creditable to our city, and inviting to the weary traveller.

Now is the time to commence such a house, if commenced at all; by the time it could be finished, the Grand Haven, and the Lake Shore Railroads, will bring crowds of travellers from the East and South to our beautiful city, while on the other hand, some five hundred miles of railroad, diverging in different directions from the city, and reaching the Mississippi at different points, will bring the principal part of the travel from MINNESOTA, northern Iowa, and our entire State, through our city; and what, I ask, will we do with them? Chicago, with all her magnificent Hotels, cannot now accommodate the travel thro' that city; and when those roads are opened, the travel through our city, will be as great, if not greater than at Chicago. A single glance at the map, and a proper study of the tide of human events, must convince the most incredulous on this subject.

A traveller, who came through from Cleveland the other day, says that he left Cleveland in a crowded train of fourteen cars, and at every station some dropped off, and others stepped on, so that fourteen crowded cars still reached Chicago; and when they started west from Chicago, it again required fourteen cars to carry the restless multitude westward; and he says, that a large majority of this latter crowd would have come by way of Milwaukee, had there been Railroad facilities. This will be be the appearance of things from that direction; and yet, more may be legitimately anticipated, by way of the Great Trunk road which points directly to Milwaukee from the East. These two roads will unquestionably be opened before such a Hotel can be built, if no more time be lost. Is it not therefore censureable lethargy, on the part of our capitalists on this subject, in view of the approach of this inevitable and stirring state of things, longer to delay this important item of improvement, and enterprize.

The site on Wisconsin Street, between Milwaukee and Jefferson Sts, can be had for that purpose at a low figure, and is decidedly the most desirable point for a first class Hotel, in the city, (and I might say in the *west.*) It is high, airy and dry; from this position you will not only have a healthy and pleasant location, but you would have a commanding, and beautiful view of the Lake and Harbor, as well as a large portion of the city. Wisconsin Street is decidedly the most pleasant street in the city, and although a Hotel located here would not be in the immediate vicinity of any of the depots, it would nevertheless be as acceptable, and equi-distant from all the depots and landings, as any dry and commanding point, any where in the city, if not more so.

Travellers who patronize first class houses, do not care so much whether the omnibus or cab that carries them from the depot to the Hotel has one, three, or six Blocks to go, as they do for comfortable quarters when they get there, and but few can feel comfortable, no matter how fine the Hotel, in the neighborhood and in hearing of the incessant war of carts, drays, cabs, busses, smoke, noise, filth &c., &c., the natural and confused concomitants of depots.

Again, it is not at all likely, that the different depots can be located at the same point. A Hotel therefore in the immediate vicinity of one, would be equally as inconvenient to the other depots and landings, as a house a few Blocks from either would be. A little reflection only is necessary to satisfy any one on this subject. at New York, Philadelphia, Baltimore and other large cities there are generally large Hotels in the vicinity of depots, but they are not patronized by the traveling community; they are convenient for the accomodation of the *attaches* of the the road, but the traveler who cares for comfort, steps into a cab or a Bus, and takes lodging in some of the first class houses, up-town Broadway, or Chestnut St. for instance. Every one who has travelled to any extent, knows this to be indisputably true.

In addition to the reasons already suggested is the fact, of which there can be no rational doubt, if suitable accomodations are provided, that Milwaukee will soon become a favorite resort for those who seek a retreat from the sickly and scorching rays of a southern sun, in this cool and genial atmosphere, in the summer season. And where? I ask, is there a more delightful site for a Hotel in which such a retreat could be effected, than the one suggested. Why then "stand ye here all day idle?" Who will be the first to put this ball in motion? Will Milwaukeeans prove to the busy world around them, by any farther neglect of this all important matter, that they are deficient in this particular at least in a laudable public spirit and good taste, or will they prove the contrary by prompt action? M.

The Drama Begun!

(From the London Times of March 28th.)

War is declared. A peace which has lasted the unexampled period of thirty-nine years, which many fondly hoped was to last as many more, is at an end; and the three most powerful States of Europe are once more engaged in a struggle, the duration, the end, and the results of which no man can tell; but which is too likely to produce disasters and sufferings, of which we are mercifully spared the foreknowledge.

It is not for us to attempt to lift up the veil of a futurity which must be sad in many respects; nor is there any need. No alternative is left us; the decision has been taken out of our hands; and, unless we would submit, with our allies, to crouch under the insolent dictation of a barbaric Power, and see the liberties of Europe disappear under the tramp of the Cossack, we had no other course than to do what has now been done in sad and solemn form. The sight of the document we publish to-day will call many to their senses who to the last have speculated on the chances af war as a still remote contingency, or have looked at it only in its holiday aspect.

If the mere sight of a manifesto to which we are happily so little used might sober the most thoughtless, the perusal of it will remove every scruple from those who do not think all war unjustifiable.—The document does justice to the long and anxious efforts of France and England to heal the rupture which the Czar had all along determined never should be healed, except by the subjugation of a neighbor against whom he had no longer a quarrel.

There is not an Englishman whose thoughts are still free, and whose hand is not tied by some fanatical theory, who will not respond heart and soul to this solemn appeal. The greater part of us will only be called on to endure sacrifices, and thankful we should be that our part in the noble struggle is not more severe. But those sacrifices all will make cheerfully and ungrudgingly, from the conviction that HEAVEN has put them upon us, and that the only way to save ourselves, and fulfil our part in the terrible drama, is to strike with all our might, and let the great culprit see at once the strong determination and the tremendous power he has presumed to set at nought.

We have been slow to take the decisive step. The Russian has evidently concluded that we are too commercial to be real warriors, and too fond of profit to be keenly sensitive to wrong. Now that we have thrown away the scabbard, and stand face to face with our insolent antagonist, it only remains to disabuse him thoroughly of this imaginary estimate of our temper and power.

☞ That we have no doubt will be done, but it will be done all the more readily by our gallant fleet and army, if it be known that all England follows her sons to battle, and will prosecute their cause and avenge their death, till soon or late the rights of nations and the liberties of Europe receive a fresh sanction in the signal punishment of the gigantic offender.

HALPIN sold a lot of the old furniture, carpets &c. about the capitol to-day. The building is to undergo a thorough renovation.—*Madison Dem.*

From the Stevens Pt. Pinery.

The Legislature and the Sentinel.

The Legislature has created a Private Secretary-ship to the Governor. Salary $1,000!!

The Madison *Journal* says the Capital has been invested the past winter with gamblers and blacklegs, who make a business of stealing and counterfeiting [legislative] bills. Shouldn't wonder!

ANOTHER SINECURE.—The Legislature has created the office of BANK REGISTER, with a salary of $1,068 per annum. He is to be the Comptroller's Clerk.

The Legislature! has passed a law to withhold the School Money, from those counties which are in arrears for State Taxes:

The Editor of the *Sentinel* praises God, on the adjournment of the Legislature, and pays the body a handsome compliment——by his abuse.

☞ The Legislature has passed a Bill to authorize the reception by the comptroller of City and County Bonds as a Banking Basis. Farewell to the dimes.

The Legislature has provided for the levying a State Tax of 225 thousand dollars for the current year. Before we went into State government, we were promised the expenses should not exceed 75 thousand dollars a year.

Considering the array of paragraphs which accompany us as above, we are very well satisfied. The Legislature did not, however, pass the bill referred to in the next to the last paragraph.

DIVIDED AND UNITED.—One portion of the Hunker press of the State condemns the State, and approves the National Administration. The other portion condemns the National, and defends the State Administration.

The People should unite and overthrow both. And we trust they will.—*Free Democrat.*

Both "portions" are just half right—the one in condemning the State, the other the National Administration. Never did two sets of rulers more richly deserve candign punishment at the hands of the People than those who now control our State and National destinies. We hope that both will get their dues the very first chance.

The Emigrant Agency.

The Legislature, at its last session, passed a law abolishing the useless humbug. The foreign population of this State—who, more than all others, are interested in inducing their friends and kindred in the Old World to look hitherward—*have spoken emphatically* against the system of Emigrant Agencies, believing them to be not only entirely useless, but vastly injurious to their interests and to the best interests of the State. The Governor, however, knowing more about the matter than the Legislature, and knowing also the wishes of the people better than the people themselves, vetoed the law, and appointed Frederick W. Horn as Emigrant Agent to the city of New York, at a large salary. The ostensible or pretended object in this move of the Governor is the continuance of measures supposed by some of small calibre to aid in inducing foreigners to come and settle in Wisconsin; while the *real* object is to provide a place for one of the faithful, and to pay a debt for most obsequious political services rendered and prospective. It is painful to be obliged to speak in such plain terms of, on subjects of this kind, but our duty to our friends and the public requires it at our hands, and we shall not hesitate or shrink from the performance of that duty. We believe that when Gov. Barstow appointed F. W. Horn to that office, he knew that he was incurring an unnecessary bill of expense to the State; that such Agency would be of no manner of use whatever, and that he was about sending a man to New York who was not to be trusted in New York or any where else to represent any important public interest. We further regret this appointment, because it creates the necessity on our part of warning our friends in Europe of the danger of trusting, in any manner whatever the agent—*not of Wisconsin*—but of William A. Barstow.

From present appearances this is ceasing to be a government wherein the will of a majority of the people becomes the law of the land. No regard whatever is paid to that will, or to the real interests of the people, if they are opposed to the will, errors or corruption of those who by accident hold a temporary power. The system is turning upside down, and the will or caprice of the few, sets at defiance the wishes of the many, and the offices are not held or used to keep the enginery of State in motion or guard its interests, but are made the great highways of public plunder. A constitution is treated as a mere sheet of blank parchment, and its salutary rules as completely disregarded as though the very idea of the fundamental principles of all law had become obsolete. And the end is not yet—the people must continue to pay and suffer a little longer.—*Waukesha Democrat.*

Congressional—Right of Search.

WASHINGTON, April 17.

In the House, Thomas D. Elliott, Representative from Massachusetts, took his seat.

Mr. Walbridge, from New York, submitted a resolution declaring that the United States deems it proper, in view of the existing war in Europe, to make known that every American vessel engaged in the lawful pursuit of commerce, is held by this government to be protected by the flag which covers her, and which shall be the evidence of her nationality; and that we attach to all such vessels the character of sovereignty, considering them a part of our territory, inviolable, and clothed with corresponding immunities. Our rights thus declared, rest upon no temporary basis.

The resolution also affirmed the doctrine that any attempt made by any of the European powers to extend their system of government to any portion of this hemisphere would be looked upon as dangerous to our peace and safety, and that the United States will never consent that sovereignty of Cuba shall over be transferred, except to the States to which she seems naturally to belong.

The House refused to suspend the rules.

The Washington correspondent of the *Courier and Enquirer* says among the assurances given to Mr. BUCHANAN by Lord CLARENDON was, that in the visits of British cruizers to American ships neither the captain or any the officers or crew should be compelled to come on board the armed ships nor to leave their own vessel, nor to submit to anything more than satisfactory examination of papers to prove that the cargo was not composed wholly or in parts of stores and munition for an enemy.

ANOTHER NEW TERRITORY.—It is stated that the people of Carson Valley have agreed to make application to Congress to be separated from Utah and formed into a new territory, to be bounded on the east by Goose Creek Mountains, north by Oregon, south and west by California. The area included within these limits is about one third of the territory of Utah, of which it is the western part. It is remote from the Mormon settlements, and its inhabitants are not Mormons.

"Who is 'Nebraska Bill?" said a loafer the other day, "I'll bet a five that Tom Hyer can knock him in two rounds.—*Ex. Paper.*

For the information of all concerned, we can state, that Nebraska Bill is a lineal descendant of "Jack the Giant Killer," and that, in his recent set-to with the Little Giant, of Illinois, he threw in some "settlers" from New Hampshire, Connecticut, and Rhode Island, which proved to be anything but "inoperative." "Little Dug" advises the northern chivalry to keep clear of his "squatter sovereignty" claws, (clause.)—*St. Louis (Mo.) Democrat.*

The new vessel of Simmons & White, which has been building this place during the winter, is expected to be launched this (Tuesday) afternoon. She is a very staunch, well-built craft and designed mainly for the lumber trade, and has stowage capacity below and above decks for eighty thousand feet of lumber. A very good sized craft.—*Kenosha Telegraph.*

We bought a few days ago a paper of "Genuine Havana Smoking Tobacco." The outside wrapper looked as old and Spanish as possible—the inside wrapper was a piece of a N. Y. Tribune of a very recent date. Success to "home manufactures."—*Madison Democrat.*

THE RAILROAD.—MR. DURAND, President of the Racine & Missisippi Railroad, has returned home from New York and brings the welcome intelligence to our Citizens, of the completion of a contract with Messrs. R. & G. S. Schuyler by the terms of which they are to furnish all the Iron and Rolling Stock for our Western Railroad. They are to furnish 6,500, tons of Rails, eight first class Locomotives; eight first class passenger cars; four baggage cars; thirty gravel cars; one hundred and twenty freight cars; the delivery of which in this place is to be finished by the 15th of October next. They are to lay the track from this City to Beloit. The Messrs. Schuyler are wealthy and responsible men, and will fulfill their contract to the letter.—*Racine Democrat.*

NEW ADVERTISEMENTS.

MESSRS. J. HOLTON & Co., announce the removal of their Express Office from the Railroad depot of the M. & M. R. R. Co. to handsome and convenient rooms in Furlong's block, corner of East Water and Main Streets, on the same floor with Marshal & Ilsley's Banking office, where they are ready to attend to the despatch of all business in their line. It will be seen that they have made arrangements for daily trips to and from Madison and Janesville and intermediate points on the M. & M. R. R. and will also forward goods to and from Beloit, Lodi, Bamboo, Portage City, and Mineral Point, as well as attend to other branches of business in connection with their Express. Their new office is very conveniently located for business.

THE LADY'S NEW FASHION BOOK is advertised by S. M. Pettingill, one of our efficient New York agents, and its testimonials, from journals of wide reputation, are sufficient to warrant our lady readers in believing that this new magazine of Fashion is to be a necessity for them, more even than salt or sugar. The Empress Eugenie' sdecrees can be obtained at a very early day after their promulgation, by the use of this paper.

AYER'S CHERRY PECTORAL occupies considerable space with a statement of its virtues, and certificates thereto. There is too often a deal of humbug in these certificates to the efficacy of medicines in preventing children from "going to a better world," curing dangerous affections, &c., &c.; but this preparation is one to whose excellence in cases of severe colds, to which we are all subject in a changeable climate, we cheerfully bear testimony.

BLACKSMITHS and FINISHERS will find something to interest them, also.

IMPROVEMENTS ALONG THE RIVER.—We notice preparations on foot for another large warehouse on the lot north of Plankington & Co's. Packing House, to be built by Mr. Hooven, dimensions not ascertained.

The warehouse next below of which a brief notice was given yesterday, as about to be erected by BURNHAM, is to be a much larger building than we then supposed. Its dimensions will be 120 by 41 feet, four full stories high, upon a stone foundation, and the frame to be of solid oak; to be fitted with three steam elevators. The walls are to be 2 feet thick, of brick.

L. J. HIGBY, is getting out the oak frame for an extension of his large warehouse near the M. & M. Railroad depot.

The front buildings on the lot upon which Newhall's mammoth warehouse is to be erected, have been moved elsewhere, and the work will be pushed forward rapidly.

Walker's Point bridge is about ready to be opened for travel. Foot passengers have crossed it for some days.

JOHNSON & Co. are setting a new line of dock along their front, 170 feet. They are also erecting another building near their present extensive cooper's shop, to be occupied for the same purpose. They are about to build a shed covering their dock, so that goods can be landed under cover.

MCKAY is laying dunings under his salt platform, and getting it in readiness to receive his cargoes of salt.

GO AND HEAR WINCHELL TO-NIGHT! That gifted son of Momus, popularly known as WINCHELL, gives a humorous entertainment at Young's Hall *to-night*, in which he will introduce his farfamed "California sketches." Those who relish and wish to enjoy a hearty laugh, can make sure of the luxury by attending WINCHELL'S *Soiree* this evening.

SOAP FACTORY AND DWELLING HOUSE BURNED.—A fire broke out yesterday morning between 3 and 4 o'clock on the Lake Shore, south of Higby's Pier, which ended in the entire destruction of Pugh & Langdon's Soap Factory, and a dwelling house occupied by Mr. Davies. The loss to Messrs. Pugh & Lagndon is estimated at $3000—insured $600, in the Rensselaer Co. of New York. Mr. Davies was insured for $200—$100 on the house and $100 on the furniture, in Knickerbocker Co. N. Y. The fire was first discovered on the south side of the Factory, and is supposed to have been set. A valuable horse worth $150 was burned, belonging to Pugh & Langdon—also a large stock of Tallow &c.

MCGREGOR & TENNEY.—The gentlemen composing this well known legal firm, have concluded to part company, and pulling up their well-set stakes here, to plant them elsewhere.—Mr. MCGREGOR has disposed of the dwelling, recently erected by him, to O. H. Waldo, Esq., and goes to Ottowa, Illinois, where he owns a farm, and means to attend to it, varying his feats of agriculture with attention to his regular profession.

Mr. TENNEY goes to Portage City, one of our most thriving inland towns, to continue there the practice of the law.

Both of these gentlemen have made many warm friends in this city, and we part with them with regret, commending them to the good will and confidence of their new neighbors.

MASON STREET.—How long do the Aldermen of the first ward intend to leave Mason Street, one of the principal thoroughfares in our city, in its present scraggy and unsightly condition!—There has been abundant time, since the ordinance passed, to complete the grading and regulate the sidewalks on this street. Yet neither is done, or doing. Will the Aldermen of the first ward look to this matter?

MILWAUKEE BRICK.—Mr. EDWARD H. BRODHEAD, Superintendent of the M. & M. Rail Road, who is now on a visit to Utica, writes to the *Observer* in that city that the so-called "Milwaukee brick" of which their new City Hall is to be built, is the *bogus* article, manufactured at Buffalo, and not the genuine. The same is true of the Trinity Buildings, Broadway, New York.

Important to Masters and Seamen of Lake Vessels.

An important examination took place on Wednesday, before Justice Powers, in relation to Seamen deserting from vessels after having signed shipping articles. We give the case condensed somewhat, but more fully than usual, as it is of much consequence at the commencement of a season of navigation. The case is this; five seamen shipped in the schooner *Fashion* in Chicago, signing the articles. The vessel was laden with wheat, and bound for Buffalo; she left Chicago on the 11th of April, and after being out in the recent heavy gale, and when near Point Sable, bore up and ran for Milwaukee, making this port on Sunday last. The crew remained by the vessel till Tuesday morning, when on being "turned out" in the morning, pumped out the vessel, and then refused to work any more, stating they should go no further in her. The mate who had charge at the time, acting under the express orders of the Captain, allowed them no breakfast unless they would "turn to". The vessel was at that time lying at the "derrick," off Captain Jones' ship yard; they succeeded in going ashore after being forbid by the mate, a man from the Custom House demanding that they should be allowed to go ashore, as he was an officer.

The arrest was made under the 7th Sec. of an Act of Congress, entitled "an Act for the government and regulation of Seamen in the Merchants' Service," passed July 20th, 1790. The Sec. provides in substance, that if any "Seaman or Mariner, who shall have signed the articles for the performance of a voyage from a port in one state to a port in another state, in a vessel of upwards of fifty tons register, shall desert or absent himself, without the leave of the master or officer commanding in the absence of the master, any Justice of the Peace within the United States may issue his warrant and have such deserter brought before such Justice, and upon proper proof to commit such deserter to the house of correction or common jail, there to remain till the vessel is ready for sea, and the seaman deserting has to pay the costs."

The defence set up in this case, was a miserable failure, namely—that the vessel was not seaworthy. The counsel for the captain of the schooner gave way and allowed one of the arrested seamen to testify as a witness, stating that, as they were all arrested, it would be hard to debar them from any evidence on their part. The eldest of the seamen was then sworn, and testified to the schooner getting into a gale of wind outside; that the men were kept pumping a great share of the time. That he looked down in the forecastle and saw the water washing over the kelson; that he ran aft and asked the captain "to keep her off, for God's sake, or they be all dead in an hour;" the captain paid no attention to the *orders* of the seaman. The witness went on and stated that he selected the vessel in Chicago, worked a day on board before he left; that he liked the vessel and the officers &c.

The whole of the evidence on both sides was that the men had taken one of those peculiar fits that sailors take sometimes; a determination to leave the vessel, without any reason, attempting to defend their conduct with statements that a *sailor* would be ashamed of. The younger ones were evidently led into it by the elder one, who should have been made to taste the food of a jail, to teach him his duty, and to prevent him teaching young seamen to desert.

The Captain of the schooner, Captain Main, exercised great forbearance in even admitting the men to bail, as the power under the act is not given to the Justice to bail, but simply to commit to jail.

This is the first case tried in Milwaukee of this nature, and the precedent may now be considered as established: That a seaman signing a contract or shipping articles in one port, to proceed to a port in another state, must fulfil that contract, or if he deserts will be *arrested and put in jail, and kept there till his vessel is ready for sea*; and he will have to pay all the costs of his arrest and keeping in jail.

The case was conducted by Mr. Emmons for the plaintiff, and Mr. Winfield Smith for the defendants.

APPEAL TO THE BENEVOLENT. An appeal to the sympathy of our citizens is made in behalf of Mr. DAVIS, an old man of nearly 60 years, who was burned out at the fire on the Lake shore night before last, losing his house and his all.—His family consists of a wife and daughter, and they had succeeded, only a few days since, in paying the last instalment upon their house.—Dr. Hatchard interested himself for them yesterday morning, and procured for them a house, the 3d from the East end of Detroit St., and any donations for them may be left at the house or with Dr. H.

THEATRICAL COMPANY.—The Theatrical Company, under the management of LANGRISHE and ATWATEN, who have been performing in different parts of the state, during the last year or two, will commence a short season in Milwaukee on Monday next. They come hither from Janesville and the *Standard* thus commends them to public patronage:

We part with this company with regret, and hope to see them at as early a day as possible They are well liked here, well liked all over the western portion of the State, and we can only recommend them to our Milwaukee friends as a company that will give good satisfaction, both as actors on the stage, and by their correct deportment off.

REAL ESTATE.—Sold by CALEB WALL, agent, yesterday, lot 2 in block 65, 4th ward, for $1,900. Also, in same ward, lot 4, in the Menomenee marsh, several feet under water, for $600.

Holloway's Ointment and Pills, the best Remedies for the cure of Bad Legs,—Mrs. Heppel, of Blyth, near Morpeth, was afflicted with a dreadfully bad leg, for which she consulted the most eminent medical men in that neighborhood, but it would not yield to their treatment. Her health suffered severely, and the state of her leg was terrible; the ulcers rapidly increased in size, and the pain was most agonizing. In this state she commenced using Holloway's Ointment and Pills, and after continuing them for some short time the leg was completely cured, and she is now in the enjoyment of excellent health. Mr. Wilkinson, druggist, Blyth, vouches for the accuracy of this statement.

A Wonderful Discovery has recently been made by Dr Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the lungs. We refer to "Dr. Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which, he has innumerable certificates. Speaking of the treatment, a physician remarks:—It is evident that inhaling—constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion The Hygeana is for sale at all the druggists throughout the country.—*New York Dutchman, Jan 14th.*

☞ The best evidence that can be adduced in favor of the efficaciousness of Hoofland's German Bitters, prepared by Dr. C. M. NOTICE.

On Wednesday, Oct. 14th, I shall have the Pedigree and Terms for the season of the Comet Morgan Horse (lately brought from Vermont by me) printed and bound, ready for those wishing the use of him the first season, to enter their names. Season to commence the second day of April, and end the 31st day of July. He is limited for the season at fifty-two mares, two of them my own. It is claimed by those owning the Black Hawk Stock that stands so high in Vermont, that the *original* Black Hawk was sired by the Old Sherman Morgan, the grand sire of my horse. If so, the same sires blood can be raised in this State, and as a far less expense than to import them from Vermont; that was one reason for my bringing Comet Morgan West. His pedigree is fully authenticated.

THE WAY TO THE ALTAR—MATRIMONY MADE EASY; Or, How to Win a Lover.

"Love rules the court, the camp, the grove,
For love is Heaven, and Heaven is love."

So sung the bard; yet chooses polite
For love—of life the light divine—
Who did they know some gentle charm,
The hearts of those they love to warm,
Might live, might shine forever?
Possessing all of which they dream.
The road to Wedlock would you know,
A shadow lies on living things;
Then store the moments as they pass,
Ere fall the last sands through the glass;
At least the present is your own,
While all the future is unknown.
A happy marriage man or maid
May now secure by HOFFET'S aid.

Professor ROUNDOUT, of New York, formerly of Sweden, where he has been the means of bringing about thousands of happy marriages, will send to any address, on receipt of one dollar, a post paid, plain directions to enable Ladies or Gentlemen to win the affections of as many of the opposite sex as they may desire. The process is so simple, that no disappointment can possibly occur, irrespective of age, appearance or position; and last, though not least, it can be arranged with the utmost care and delicacy. Address Professor ROUNDOUT, New York City, Post paid.

I have no agents, and any person advertising themselves as such are silk swindlers, and I will prosecute them as the law directs.

N. B.—This is no humbug, but one of the greatest sciences the world ever produced, which thousands of ladies and gentlemen in the City of New York can attest to. No one will ever regret the price paid for such an invaluable secret. All letters properly sealed and plainly directed may be sent at the Professor's risk. mr31-3moly McD

apr8 BUFFALO NEW YORK.

THE
BUFFALO EAGLE IRON WORKS CO.
Propose to pay Particular attention to
Architectural Iron Work.

WE are prepared to Manufacture IRON FRONTS for Stores and Public Buildings, with the

Patent Fire Proof Rolling Shutters.

These Shutters are the same that are now so generally used in New York and may be put in any Window, Small or Large, and if arranged before erection or the building, may be used without in the least affecting the style of Architecture. They make the only perfect Fire Proof Shutters, and do not appear to fire one when rolled up.

When desired we will furnish the Plan for Store Fronts, (with or without the Patent Shutters) with estimate for the cost of the work finished ready for delivery. To our Western friends we think this arrangement will be desirable, for they then are enabled to know exactly what experiment will cost the Iron Fronts to buy, and what it is to cost.

When the Patent Shutters are used we will furnish a man to superintend the erection of the Iron Front and the setting of the Shutter.
